

**Thursday, June 25<sup>th</sup>, 2026**

14:30 -15:45 Poster Presentation - Erosion (Hall B)

Chairmans: Marília Afonso Rabelo Buzalaf and Marisa Maltz

No.	Title	Presenter Name
<b>13</b>	Protective effects of milk-based and plant-based yoghurts on enamel erosion and tooth wear	Aline Silva Braga
<b>14</b>	Protective effect of a novel orange-derived cystatin against initial enamel erosion in vitro	Marília Afonso Rabelo Buzalaf
<b>15</b>	Effect of rheology modifiers in polymer-based toothpastes for erosive tooth wear control	Alessandra Buhler Borges
<b>16</b>	Obesity and erosive tooth wear: a scoping review of evidence in children and adolescents	Laylla Galdino dos santos
<b>17</b>	Proteomic composition of acid-resistant pellicles modified with fluoride-based solutions	Leticia Oba Sakae
<b>18</b>	Salivary pH during and immediately after intake of sour gummies - a pilot study	Line Staun Larsen
<b>19</b>	Weight loss of dental enamel exposed to "Four Loko", a carbonated alcoholic drink	E.D. Acuña
<b>20</b>	Real-time assessment of dentinal fluid flow reduction by desensitizing agents using sub-nanoliter flow measuring system	Soyeon Kim
<b>21</b>	Effect of hydrogen peroxide-containing toothpastes on enamel erosive-abrasive wear	Leonardo Santos Barros
<b>22</b>	Experimental fluoride-containing varnishes for the prevention of erosive tooth wear in dentin	Luiza Santos Scontre
<b>23</b>	Surface-modifying effects of aminomethacrylate and fluoride antierosive solutions on enamel and dentin	Taiana Paola Prado
<b>24</b>	Effect of fluoridated toothpaste and mouthrinse containing tin on erosive tooth wear: in situ study	Marisa Maltz
